Conference 10 maggio 2023

EXPERIMENTAL MODEL OF CARE: A GEAR SYSTEM IN FAVOR OF  
FAMILIES WITH VISUALLY IMPAIRED CHILDREN

**Dott.ssa Mastantuono Chiara**  
**Coordinatrice Servizi Sanitari**  
**Fondazione Officina dei Sensi**

# THE FAMILIES

*ASSISTANCE FRAGMENTATION*

*CHALLENGE*

*DOUBTS*

*FEARS*

*TIME*

Disintegrazione della Persistenza della Memoria" Salvador Dalí

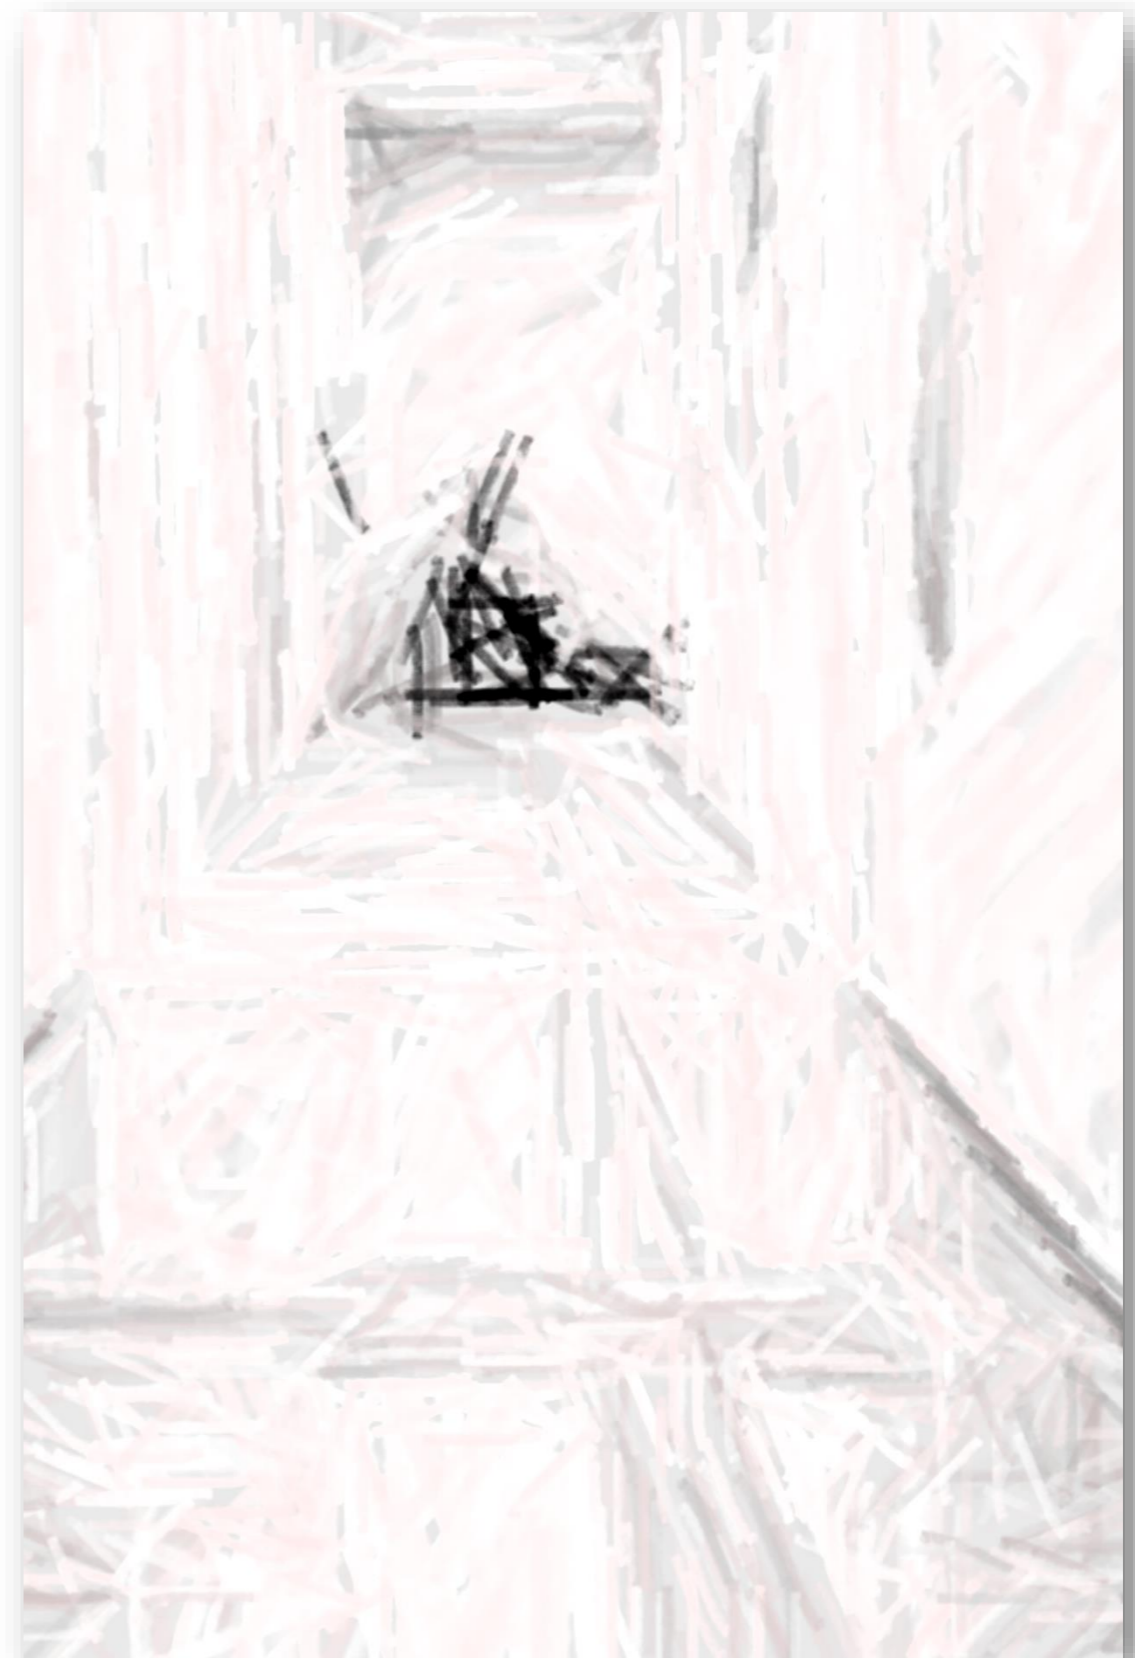

# REHABILITATION

*Path of bricks, sticked one after the other, in order to ensure the development of skills*

*Builders*

*Experiences*

*Culture*

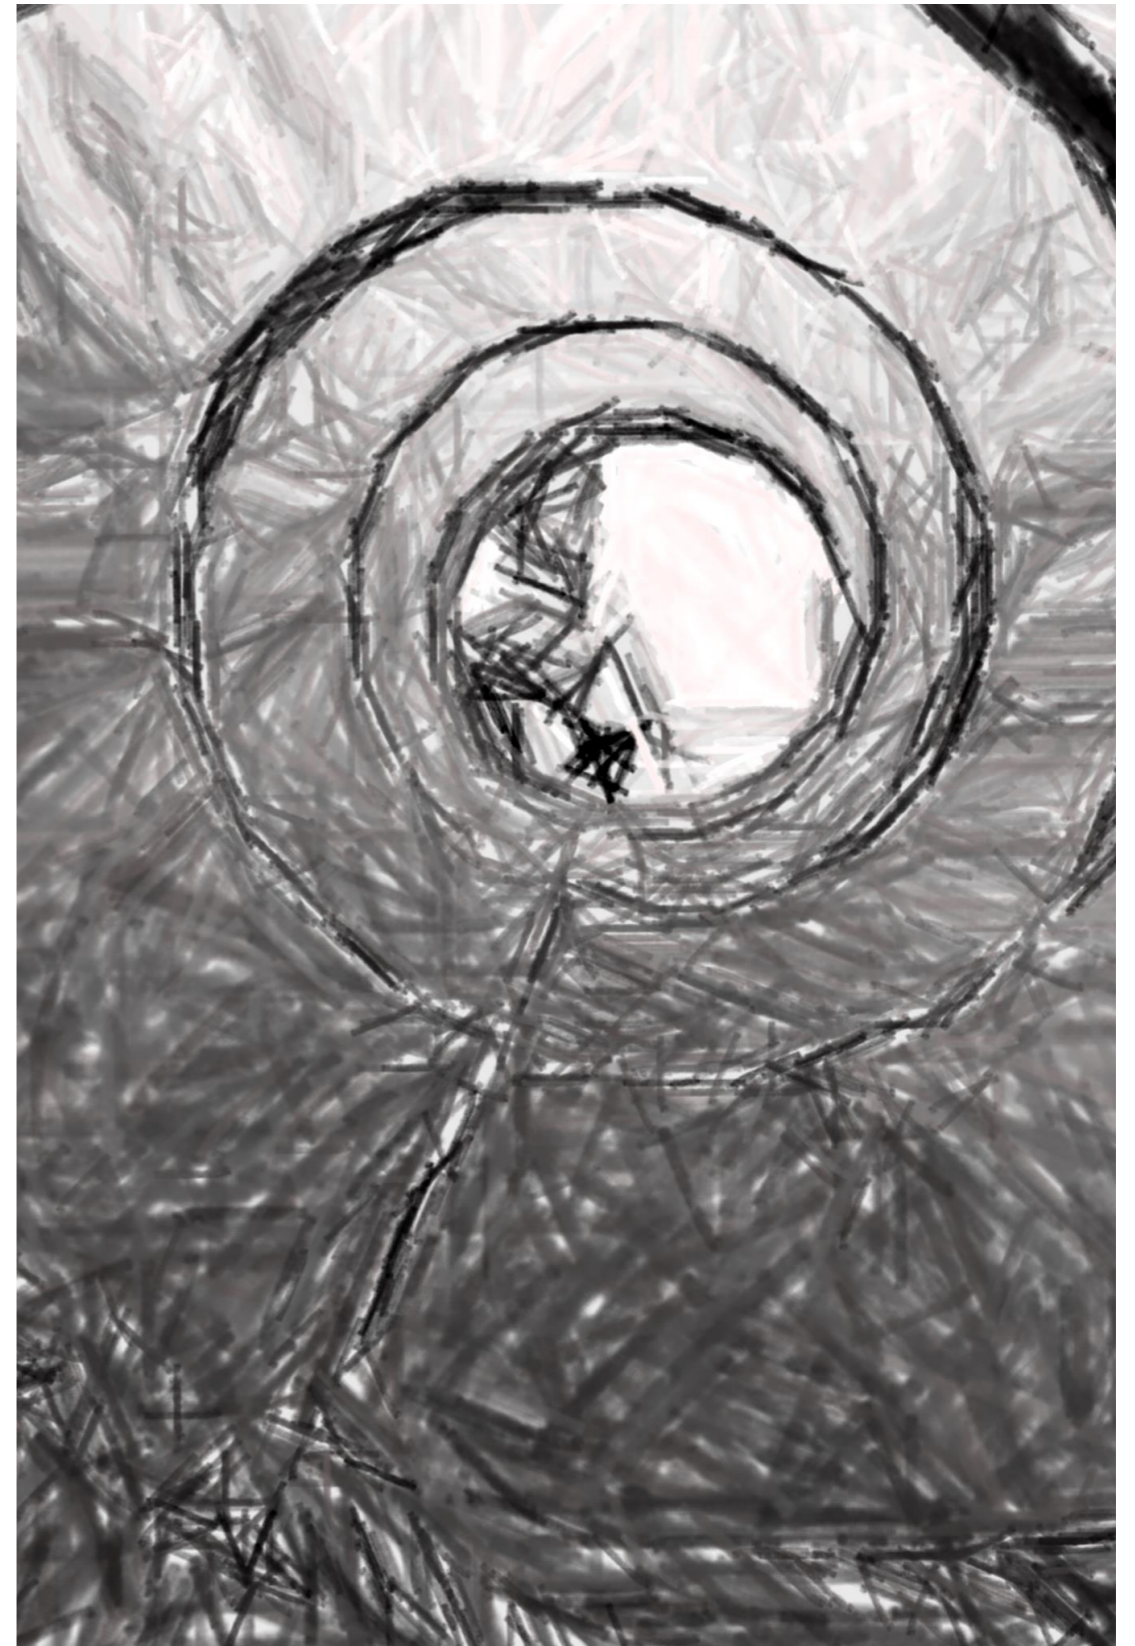

# CHILD - FAMILY

*Play Therapy*

*Exchange of experiences*

*Emotions*

*Reflections on what and how to do*

Listening to families and the mutual will to evolve are the foundations on which we build tailor-made actions, which can be modeled for each situation by responding to single and individual needs

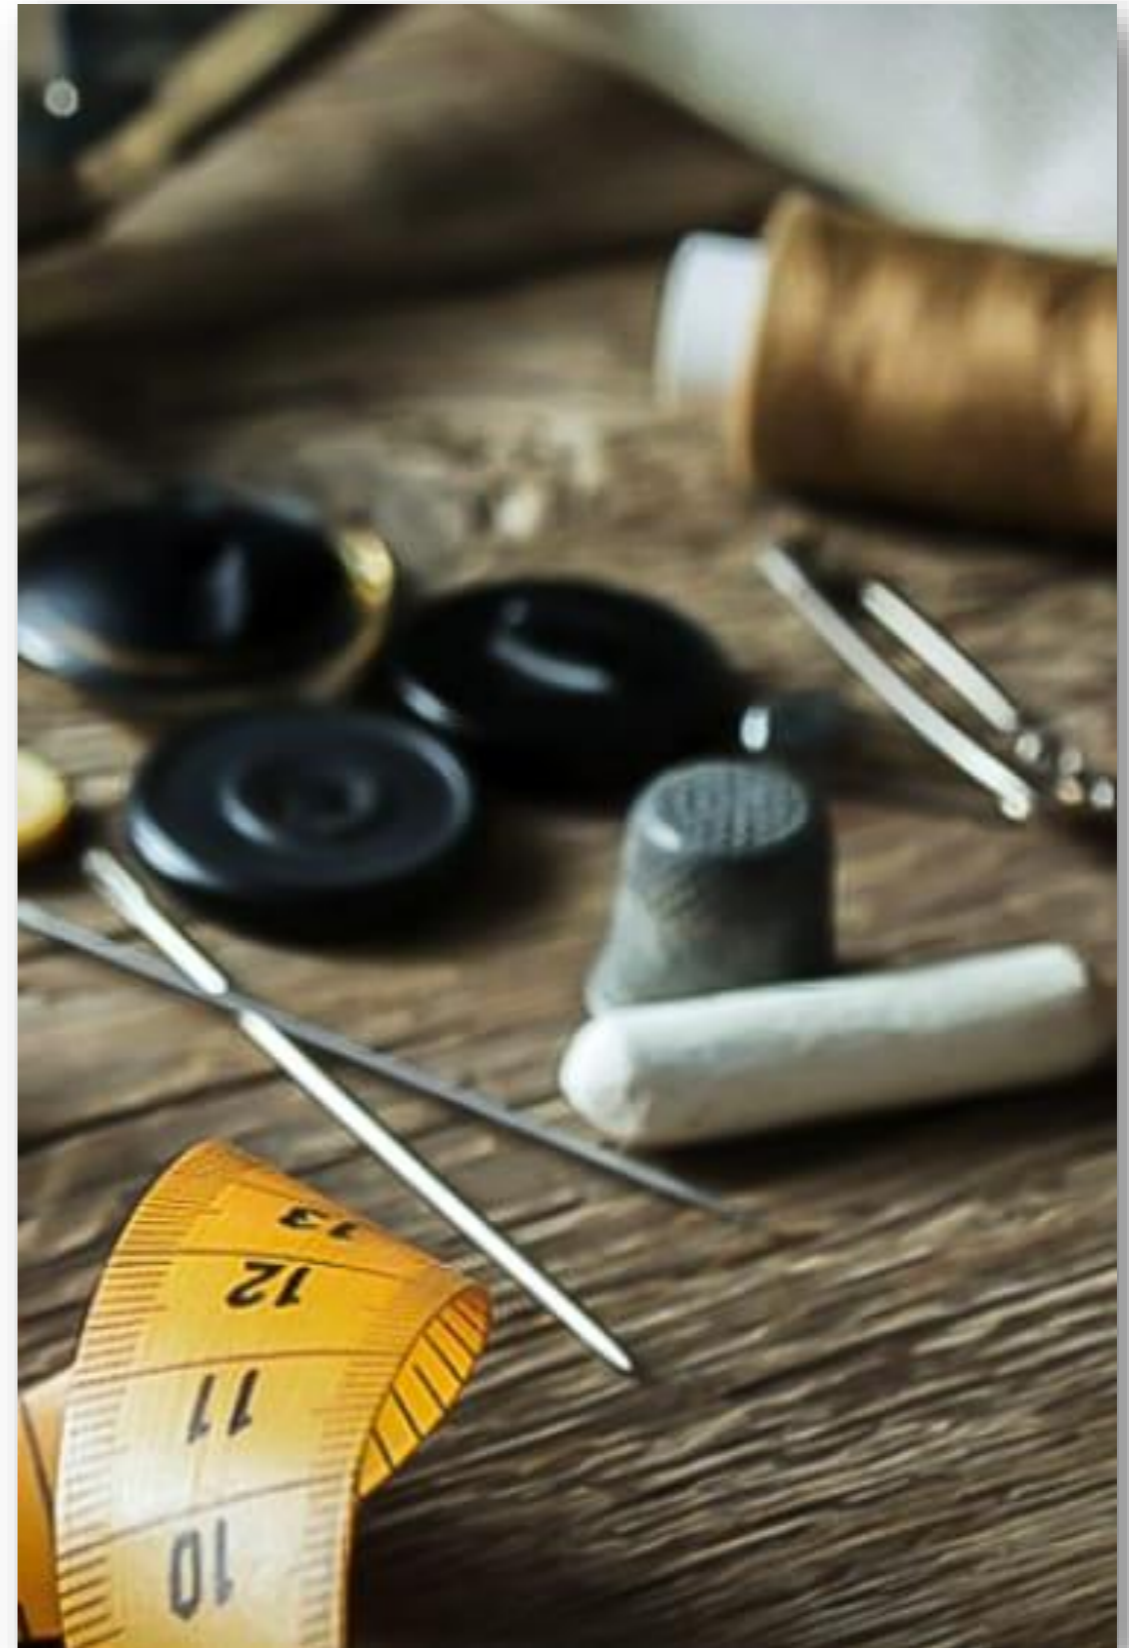

Possibility to sew one's own experiential  
life, choosing together with the team

*actions*

*timing*

*methods of action*

***Goal: Growing together for the well-  
being of the child***

In our Centre, many families, especially of very young children, are welcomed for whole days.

Let's think of a baby of a few months, an hour of activity is difficult to sustain. And so we guarantee a schedule such that 15-20m are performed every hour and a half.

# THE CHILD WITH DISABILITIES CAN BUT ABOVE ALL MUST PLAY!!

*“The game does not ask me for proofs or votes. He only asks me for freedom to enjoy the pleasure that playing brings. And this pleasure and desired joy they draw in me unknown abilities”*

*From the book "Amorgioco" by*

*Vittoria Facchini*

*IT IS NOT THE DISABILITY  
THAT MAKES THE  
CHILD*

All professionals, in their specificity and professionalism, are aware of having to look beyond the "simple disability", going to **SEEK AND OBSERVE**, within each child, each parent, each person with a disability.

Because it surprises you every time to discover how much potential there is.

# OUR WELFARE

Telling you about our free, flexible, mouldable, multi-sector *healthcare* model means talking about an internal welfare system with different sector

*Productive* (transcription of Braille and enlarged books, audio books, tiflo-technican, cultural accessibility, eyewear shop)

*social* (social secretariat, vision prevention)

*human*

they represent individual cogs in a larger mechanism.

A mechanism that presents a basic structure on which the individual services, *suitably interlocked with each other, carry out a chain of actions, in response to the information, rehabilitation, health and educational needs of each family.*

# EVOLUTION AND AFTER

Our aim:

Disseminate a health and social welfare model oriented towards a sustainable future, in which to accompany families towards autonomy and not towards the mere meaning of welfare in harmony with the institutions and civil society
